Creating Links to Download Our Software

Whenever a trial version is downloaded a cookie will be created on the visitor's computer which ensures that you will get a 30% commission if the visitor ever decides to purchase our software. In order for the cookie to be created correctly you must modify the HTML source code. In the sample HTML code below you would change the highlighted affiliate ID (in yellow) with your affiliate ID which you received in Step #1 above when you signed up.

<http://www.getfilez.com/pdfview.zip?item=4459-37&affiliate=31548>

For example, if your affiliate ID was 12345 then your HTML would be:

<http://www.getfilez.com/pdfview.zip?item=4459-37&affiliate=12345>

If you do not want to use banners on your web site you can simply use this HTML code:

```
<a href="http://www.getfilez.com/pdfview.zip?item=4459-37&affiliate=31548" target="_blank">Download PDFViewer OCX</a>
```

Creating Links to Move to the Buy Page

Whenever a visitor clicks on these links they will be redirected to the purchase page for our software. You will receive 30% commission for each sale. In the sample HTML code below you would change the highlighted affiliate ID (in yellow) with your affiliate ID which you received in Step #1 above when you signed up.
